

## QUALITY POLICY

At AtlasFibre, we are committed **to providing the highest quality composite and plastic materials and parts in the world**. We will exceed the expectations of our customers through continuous innovation, engineering, and advanced manufacturing techniques.

Our focus is on **delivering products reliably and on time**, utilizing the best available technology and automation to ensure the highest levels of quality. We are dedicated to building strong, efficient systems that enable us to consistently fulfill our customers' needs. This includes minimizing setup times wherever possible, allowing us to be **highly responsive and cost-efficient** in our operations.

This will be achieved by:

- **Continuously improving** our products and process quality by listening carefully to our customers' needs and expectations, while anticipating their future requirements.
- **Striving for zero defects** with the help of a highly effective quality management and scheduling system.
- A clear focus on setting competitive expectations and then **executing on-time delivery (OTD)**, with the highest quality of what we ship.
- Continuously investing in **enhancing the competency of our employees** by providing training & development opportunities.
- Encouraging and promoting innovation throughout our operational processes to improve efficiency and **customer satisfaction**.
- Following **ethical and transparent business practices**.
- We will **work as a team** to constantly maintain and continually improve our quality management system

**Max Egan**  
CEO of Atlas Fibre

A handwritten signature in dark blue ink that reads 'Max Egan'. The signature is written in a cursive style and is positioned above a horizontal line.
